

FROM THE FOUNDRY OF THE FUTURE, **THE FUTURE OF YOUR FOUNDRY**

Our industry is changing. Will you be ready?

Competition starts with compliance. We can help. With accurate data, test procedures and expert consulting. Technikon can help you take your emissions measurement to a whole new level... your bottom line.

Technikon's internationally recognized test foundry is devoted to developing environmentally sound technologies, processes, and new materials.

Technikon finds real solutions to real environmental problems faced by foundries today.

Call us today to talk about how Technikon can help you:

- **Reduce your emissions**
- **Qualify new products or processes**
- **Assure compliance with MACT**
- **Increase your revenues**
- **Prepare for the future**

Our Technology... Your Tomorrow

The future of environmental readiness is HERE.

Technikon.

Supporting America's metal casting industry with emissions testing and environmental consulting. Since 1994.
